CHICAGO (WLS) -- It's an audacious effort by the city of Chicago to pay for hundreds of megawatts of clean energy to offset power usage in the airports and every firehouse, police district, library and city-owned building. The I-Team tracked Chicago energy usage with an exclusive look inside the.

OAKLAND, Calif.-- (BUSINESS WIRE)-- Planted Solar, a technology startup providing a rapid solar power plant deployment platform, emerged from stealth and announced 11 MW of projects in the Chicago metro area with Cultivate Power, a distributed solar and storage project developer. "The company's.

A PowerLight employee inspects the 100 kilowatts of photovoltaic panels lining the company's Berkeley, Calif. (AP Photo/Noah Berger) Chicago funds the largest solar farm east of the Mississippi River with a plan to power city buildings. A PowerLight employee inspects the 100 kilowatts of photovoltaic.

Swift Current Energy's 800-megawatt (MW) Double Black Diamond Solar is up and running about 30 miles west of Springfield. It's now the largest operating solar farm east of the Mississippi, and it's set to make a serious dent in emissions while delivering clean energy to major customers, including.

Satcon Technology Corporation announced that it has been selected for the 10-megawatt Exelon City Solar photovoltaic (PV) power plant, the nation's largest urban solar power plant, which will be built at a former industrial site in the West Pullman neighborhood on Chicago's South Side. The site.

Space-based solar power (SBSP or SSP) is the concept of collecting solar power in

outer space with solar power satellites (SPS) and distributing it to Earth. Its advantages include a higher collection of energy due to the lack of reflection and absorption by the atmosphere, the possibility of very.

## Solar power satellite factory in Chicago

### Planted Solar and Cultivate Power Announce 11 MW Community Solar

Planted Solar has reinvented the solar power plant from design to installation with its rapid solar deployment platform.

### ABC7 I-Team gets exclusive 1st look at massive Illinois solar farm

On a swath of land about three-and-a-half hours southwest of downtown Chicago, on what was once soybean fields, sits a farm of a different kind: 1.6 million solar panels sprouting up, now

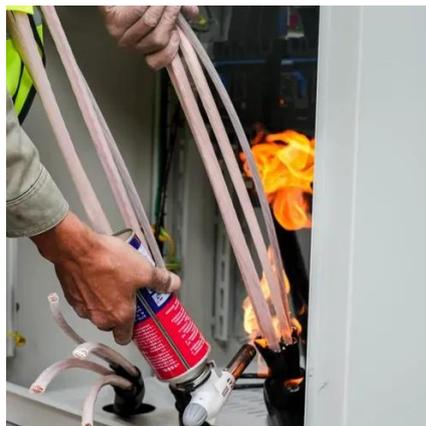

### First look at massive Illinois solar farm powering Chicago - ABC7
