KHON KAEN, Thailand, March 6 (Xinhua) -- A hydro-floating solar project jointly built by Chinese and Thai companies started commercial operation on Tuesday to support Thailand's development of clean energy. The Ubolratana Dam hydro-floating solar hybrid power plant, located in Thailand's.

On April 10th, CHINA GEZHOUBA GROUP INTERNATIONAL ENGINEERING CO.,LTD (“CGGC INTERNATIONAL”) and CPL signed an EPC contract agreement for the 90MW CSP-PV hybrid power plant project in Bangkok, Thailand. The contract value was US \$ 500 million, which achieved a new breakthrough of CGGC INTERNATIONAL.

Solar PV capacity accounted for 16.4% of total power plant installations globally in 2023, according to GlobalData, with total recorded solar PV capacity of 1,496GW. This is expected to contribute 33.7% by the end of 2030 with capacity of installations aggregating up to 4,822GW. Of the total global.

The country needs to rapidly scale up solar power to hit its 2050 net zero target, experts say (Image: Lin Hao / Xinhua / Alamy) Over the last decade, Thailand has been very aggressive on solar power development. There was a time when anyone who produced solar electricity would get a buyback, so we.

Ubon Ratchathani province in Thailand has become a landmark for China-Thailand clean energy cooperation, hosting a solar-powered charity school and the world's largest hydro-floating solar project. These initiatives are transforming local livelihoods and driving a shift in the country's energy.

Solar power station in China in Thailand

China's Runergy Halts Solar Panel, Cell Production at Some of ...

Runergy's Thai solar panel plant will start operating again when orders start coming in from the US, but if there are no orders it will remain shuttered, an industry insider ...

Hydro-floating solar projects showcase China-Thailand clean ...

Two recent hybrid hydro-floating solar energy projects jointly built by Chinese and Thai companies showcase an innovative blend of solar and hydroelectric technologies to ...

Newly operated Hydro-floating solar project showcases China-Thailand

A hydro-floating solar project jointly built by Chinese and Thai companies started commercial operation on Tuesday to support Thailand's development of clean energy.

China-Thailand green cooperation projects boost Thai livelihoods

Ubon Ratchathani province in Thailand has become a landmark for China-Thailand clean energy cooperation, hosting a solar-powered charity school and the world's largest ...

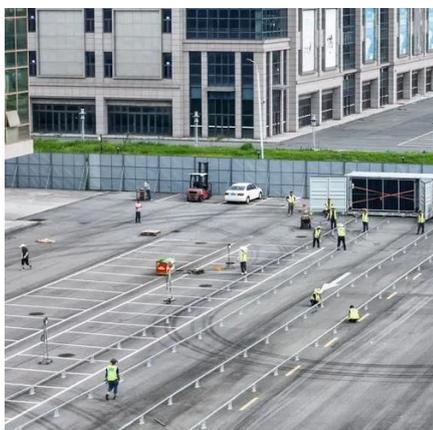

[Top five solar PV plants in operation in Thailand](#)

Listed below are the five largest active solar PV power plants by capacity in Thailand, according to GlobalData's power plants database. GlobalData uses proprietary data ...
