

Solar power with grid backup in Guatemala

Overview

The minigrids, and individual solar-plus-storage systems, form part of a Rural Electrification Access Program planned by the Inter-American Development Bank (IDB). The IDB has approved a \$250 million loan to increase electricity coverage in rural Guatemala.

Rio Hondo, Zacapa, March 18, 2025 – Kruger Energy held an official ceremony today to dedicate Zacapa Solar and to announce an expansion project that will double the solar farm's installed capacity, from 9 to 18 MW. The expansion will be conducted in two phases to be completed by 2028, adding a.

Guatemala is at risk of losing a staggering 800 MW of solar capacity due to severe grid congestion, a critical issue that could derail the nation's renewable energy goals. The problem, highlighted by experts in late 2025, stems from persistent delays in expanding transmission infrastructure.

ZACAPA, Guatemala – On March 18, 2025, Kruger Energy, a major North American renewable energy developer, officially inaugurated the expanded Zacapa solar energy project in Guatemala and announced plans for a significant further expansion. The company aims to double the park's capacity from its.

Guatemala's power regulator CNEE has approved the application by Tierra del Sol for the 75MW Tierra del Sol solar park, which will be situated in the municipalities of Masagua and Guanagazapa. This project will connect to the national grid at the Jaguar Energy substation, contributing significantly.

Guatemala's National Electric Energy Commission (CNEE) has approved transmission access for the 75 MW Tierra del Sol photovoltaic project in Escuintla, set to begin operations by September 30, 2027. The project includes over 168,000 solar panels and 240 inverters, and will connect to the national.

Guatemala is the second largest Central American power market, with a goal to

increase renewable energy use. Relatively high levels of solar irradiance and large areas of cleared land give the country a strong potential for increased solar energy development. BMR Energy acquired the Green Solar.
