

Solar supporting energy storage in city square

Overview

The memo outlines high-impact solar + storage policies and programs that the Mamdani Administration could advance to lower New Yorkers' electricity bills, improve air quality, and make the City more resilient. NYSEIA's ten key policy recommendations for the administration.

The memo outlines high-impact solar + storage policies and programs that the Mamdani Administration could advance to lower New Yorkers' electricity bills, improve air quality, and make the City more resilient. NYSEIA's ten key policy recommendations for the administration.

A US solar industry group has outlined a nine-point policy agenda calling on New York City's incoming mayor to accelerate rooftop solar and battery deployment to address grid reliability risks, energy costs and climate targets. The New York Solar Energy Industries Association has recommended nine.

Reaching the City's goal of carbon neutrality by 2050 requires the City to deploy widespread solar and energy storage as we shift to 100% clean electricity. New York City has committed to deploying 1,000 megawatts (MW) of solar citywide by 2030, enough to power 250,000 homes. Solar panels allow.

The New York Solar Energy Industries Association has recommended nine ways for the administration of New York City Mayor-elect Zohran Mamdani to speed solar and storage deployment in the city, in a "solar+storage playbook." The playbook's top proposal is for the city of 8.5 million people to raise.

The New York Solar Energy Industries Association (NYSEIA) is leaning into 2026 with some thorough ideas for how Mayor-Elect Zohran Mamdani could help advance solar power and energy storage in the Big Apple. A week before Christmas, the organization released a "playbook" for what the mayor should.

The memo outlines high-impact solar + storage policies and programs that the Mamdani Administration could advance to lower New Yorkers' electricity bills, improve air quality, and make the City more resilient. NYSEIA's ten key policy recommendations for the administration Raise NYC's solar goal to.

City of Yes for Carbon Neutrality, adopted by the NYC City Council on December 6,

2023 is a comprehensive amendment to the NYC Zoning Resolution (ZR) with provisions that modernize zoning regulations in further support of the City's climate and resilience goals. These changes support broader siting.
