

Solomon Islands PV bifacial module tariffs

Overview

On June 21, 2024, President Biden issued Proclamation 10779, ending the exemption from Section 201 duties on bifacial solar panels imported on or after June 26 at 12:01 a.m. EDT. With the exemption removed, bifacial solar cells/panels will now be subject to Section 201 duties.

On June 21, 2024, President Biden issued Proclamation 10779, ending the exemption from Section 201 duties on bifacial solar panels imported on or after June 26 at 12:01 a.m. EDT. With the exemption removed, bifacial solar cells/panels will now be subject to Section 201 duties.

The Office of the President has turned its focus to solar panels, announcing the removal of the bifacial solar panel Section 301 tariff exclusion and addressing issues of stockpiling during trade cases, alongside promoting the nation's manufacturing base. The Biden Administration has released a

The Solomon Islands presents a compelling paradox for energy entrepreneurs: a nation blessed with abundant sunshine where businesses and residents face some of the highest electricity costs in the world, often exceeding US\$0.60 per kilowatt-hour. This gap between natural resources and energy.

Since January 23, 2018, the US government has imposed Section 201 tariffs on imported cells and modules to protect local manufacturing and balance supply and demand. As of 2024, the Section 201 tariff rate for cells and modules is 14.25%, with a yearly decrease of 0.25%, set to expire on February.

The Biden Administration today put imported bifacial solar panels back under Section 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by President Biden in 2022. This decision is part of the President's sole right to make changes to.

On January 23, 2018, USTR announced that the President had approved recommendations to provide relief to U.S. manufacturers and impose safeguard tariffs on imported solar cells and modules, based on the investigations, findings, and recommendations of the independent, bipartisan U.S. International.

On June 21, 2024, President Biden issued Proclamation 10779, ending the exemption

from Section 201 duties on bifacial solar panels imported on or after June 26 at 12:01 a.m. EDT. With the exemption removed, bifacial solar cells/panels will now be subject to Section 201 duties. The affected solar. Are bifacial solar panels exempt from tariffs?

Bifacial solar panels, which are predominantly used in commercial, industrial, and utility-scale solar power projects, were previously exempt from tariffs. With the removal of this exemption, the cost of imported bifacial solar panels, typically ranging from \$0.10-0.25 per watt, will increase by \$0.015 to \$0.0375 per watt.

Did Biden put bifacial solar panels back under Sec 201 tariffs?

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by President Biden in 2022.

Why are bifacial panels exempt from tariffs?

Bifacial panels were originally exempt from the tariffs because there was no significant domestic manufacturing capacity of the specialty product. This caused more bifacial modules to be imported into the United States than monofacial panels, undermining the objectives of the original safeguard measure.

Did Biden remove the bifacial solar panel exemption?

The Biden Administration has released a fact sheet detailing multiple solar panel related policies, including the removal of the bifacial solar panel exemption. This exemption previously allowed certain solar panels to bypass the Trump-era 15% tariff.
