

The largest containerized generator set

Overview

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

Introducing Centum™ Force, an ingenious containerised generator set with all the right answers for power critical commercial operations. Good things come in small packages, they say. And in the world of power generation, an all-in-one, containerised, stackable, premium quality generator set that.

Centum™ Force, a Cummins Power Generation containerized generator sets range, provide significantly shortened installation and commissioning time. The stackable design allows for a smaller footprint and offers a lower cost of ownership. This revolutionary 50Hz product was developed in-house based.

Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units packaged in 30-foot or 48-foot ISO containers. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint — we can easily equip your gen set with greater levels of sound.

The containerized generators come fully loaded as standard, with all the sophisticated options you could ever need. We coupled 1MVA of predictable power, in standard 20-foot container; with ultra-low noise levels and ultra-high efficiency levels. Perfect for the most demanding conditions and usage.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions. By maintaining.

With the optional Qc4003™ controller, two or more QEC units can be put into parallel. It is a flexible power solution for loads that exceed the output capability of a single generator set. This type of power management system PREDICTABLE

POWER The Atlas Copco QEC generators packs a punch, up to 1.

The largest containerized generator set
