

The latest news on Kyiv s new energy storage policy

Overview

The systems will enhance energy security, reduce blackout risks, and help stabilize the grid amid ongoing Russian attacks. Construction was completed in just six months—from March to August 2025—much faster than the standard timeline for such projects. Total investment reached \$140.

The systems will enhance energy security, reduce blackout risks, and help stabilize the grid amid ongoing Russian attacks. Construction was completed in just six months—from March to August 2025—much faster than the standard timeline for such projects. Total investment reached \$140.

The largest private energy company in Ukraine DTEK has commissioned 200 MW of energy storage facilities built in partnership with US-based Fluence, a global leader in energy storage technology. This marks the launch of Ukraine's largest energy storage system. According to DTEK on September 11, six.

DTEK's Fluence Gridstack battery units at one of six energy storage sites across Ukraine, part of the country's largest battery energy storage project announced on July 10, 2025. (DTEK press service) DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's.

DTEK has launched 200 MW of energy storage facilities in partnership with Fluence, a US-based global leader in energy storage. This was reported by DTEK's press service. The DTEK Group has connected six new energy storage facilities to the Ukrainian power grid, each with a capacity of 20 to 50 MW.

Ukraine's state-owned gas conglomerate Naftogaz said on Wednesday that nearly 100 Russian drones have been targeting oil and gas facilities across Ukraine for two consecutive days. Russian drones struck facilities belonging to gas conglomerate Naftogaz in Ukraine overnight Tuesday, causing damage. Why is DTEK launching a battery storage facility in Ukraine?

(Reporting by Pavel Polityuk; Editing by Saad Sayeed) KYIV (Reuters) -Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy sector, the company said on Thursday.

How important are energy storage systems in Ukraine?

"In the context of large-scale attacks on Ukraine's energy system, the role of energy storage systems has become just as fundamental as energy generation itself," said energy minister Svitlana Grinchuk. (\$1 = 0.8554 euros) (Reporting by Pavel Polityuk; Editing by Saad Sayeed).

Why did DTEK launch the largest battery storage facility in Eastern Europe?

(Bohdan Nazarenko/DTEK)© Kyiv Independent DTEK has launched the largest battery storage facility in eastern Europe to bolster Ukraine's energy system ahead of expected mass Russian attacks on infrastructure this winter, the Ukrainian energy giant announced on Sept. 10.

Will DTEK save Ukraine's power?

The DTEK project can store 400 MWh of electricity, which is enough to provide power to 600,000 Ukrainian homes for two hours. The investment will help reduce the risk of accidents and power outages, especially in the event of possible damage to maneuverable generation facilities due to shelling.
