

# Togo Energy Storage Project

## Overview

---

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. An installation ceremony for the project took place last week.

Washington, October 17, 2025 — Agence Française de Développement (AFD) and the Global Energy Alliance for People and Planet have signed a USD 200,000 contribution agreement. This agreement will finance feasibility studies for a battery energy storage system (BESS) project in Togo – a crucial step.

Togo is taking a significant leap forward in its energy transition by launching a 55 MW pilot project for battery storage. This ambitious initiative, backed by a €25 million loan from the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), is set to.

West Africa: Togo Launches Pilot Energy Storage Project Amid Regional Energy Transition | In West Africa, access to reliable electricity remains one of the main challenges to development. This makes regional energy transition initiatives all the more significant. One such effort is currently.

Togo is launching a pilot battery energy storage project to stabilize its national grid and accelerate the country's shift toward renewable energy. The initiative is being supported by the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), which have.

Togo is preparing to launch a pilot program for green energy storage following an

agreement signed by the French Development Agency and the Global Energy Alliance for People and Planet (GEAPP) to provide 112 million CFA francs (\$200,000) to fund feasibility studies. This announcement was made.

## Togo Energy Storage Project

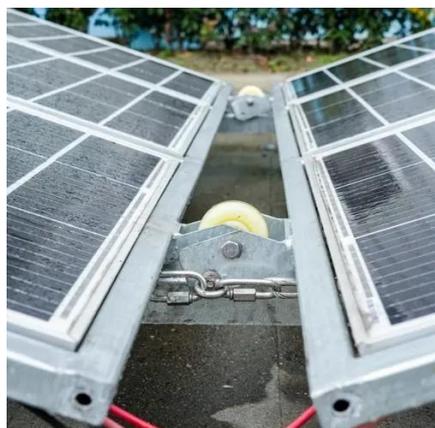

### **Togo energy storage: Impressive 55 MW Project Gets Unique Boost**

By adding a 55 MW battery system, Togo can store the excess energy generated by the Blitta plant during the day and dispatch it during evening peak hours or periods of low ...

### [Togo breaks ground on solar-plus-storage project](#)

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include ...

### **AFD and Global Energy Alliance sign agreement to develop ...**

This agreement will finance feasibility studies for a battery energy storage system (BESS) project in Togo - a crucial step to integrate more renewable energy and achieve ...

### **Togo to Launch Pilot Battery Energy Storage Program, Backed ...**

The project, which targets an initial capacity of 55 megawatts (MW), is part of the country's "Mission 300" National Energy Pact. The pact aims for universal electricity access by ...

### [France Funds 55MW Energy Storage Pilot Project in Togo](#)

The French Development Agency and the Global Energy Alliance Initiative have jointly invested \$200,000 to support a battery energy storage system pilot project in the ...

### [Togo Launches Pilot Green Energy Storage Program](#)

Togo launches a pilot green energy storage program to boost renewable power and achieve universal electricity access by 2030.
