Why should a solar PV inverter be a priority in Manchester?

Electricity prices in Manchester are already expensive so getting your system back up and running should be a main priority because nobody likes to waste money! Your Solar PV Inverter is the heart of your system so if this is broken then the production of electricity comes to a standstill.

How much does solar inverter replacement cost in the UK?

Natalie's focus lies in the areas of finance, sustainability, business communications, and more. She and her content team have been published in reputable sites like EcoWatch, Sunday Post, Earth911, and more. Solar PV inverter replacement costs in the UK start from £500.

How much does a string inverter cost?

Most string inverters come with a 5- to 10-year warranty that can be extended for a premium. Considering most solar panels come with a 25-year warranty, it goes without saying that you will at some point have to replace your inverters. The average solar PV inverter replacement cost of a string inverter typically ranges from £500 to £1500.
