With the Apostolic Letter “Fratello sole,” issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio maintains antennas for digital broadcasting. By Christopher Wells Highlighting the need “to.

ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world’s first.

On July 31, at the historic Palazzo Borromeo, the Holy See and the Italian Republic signed a landmark agreement to build an agrivoltaic system in Santa Maria di Galeria. Photo: Vatican Media According to the Vatican’s press office, the installation will apply the most advanced solutions currently.

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome. The power generated could supply all of Vatican City's energy needs. In an apostolic letter issued "motu.

The Vatican is set to become the world’s first carbon-neutral state through a groundbreaking initiative that involves transforming a 1,000-acre field north of Rome into a large solar farm. This ambitious project, which has received approval from the Italian government, aims to generate sufficient.

Pope Francis has announced measures to transition Vatican City to using solar

energy as its main source of electricity, as outlined in his latest motu proprio titled Fratello Sole, or “Brother Sun.” The Holy Father has tasked the relevant Vatican governing bodies to collaborate with Italian.

## Vatican solar panel manufacturers
