Radio broadcast stations: AM 1, FM 2, shortwave 0 (2001) Radio Television of Djibouti headquarters in Djibouti City. Television broadcast stations: 1 (2002); Radio Television of Djibouti Maintains restrictions on the licensing and operation of broadcast media; state-owned Radiodiffusion-Television.

Since the merger the Telecommunications Department of the Office of Posts and Telecommunications (OPT) and the International Telecommunication Company of Djibouti (STID) in 1999, Djibouti Telecom has become the incumbent and monopoly of national and international telecommunications throughout.

Since its establishment in 1999, the state-owned Djibouti Telecom has dominated the country's telecommunications sector which, thanks to underwater cables, connects internet providers in over 90 countries. But given the liberalisation of the market and the emergence of new players, can the operator.

Djibouti hosts about 10-12 international undersea cables on the Red Sea coast, including SMW3, EIG, SEA-ME-WE-5/6, AAE-1, EASSy, WIOCC, Yemeni, and DARE1, linking to Europe, Asia and East/Southern Africa. Djibouti Telecom invested over \$200 million in the last decade in landing stations and a.

Djibouti, a small but strategically located country on the Horn of Africa, is rapidly emerging as a critical player in global connectivity. Nestled at the crossroads of major international maritime routes, the nation leverages its geographic position to serve as a hub for telecommunications.

The DDC leverages Djibouti's strategic position in East Africa as the major meeting point for undersea fiber optic cable systems connecting Europe, the Middle East, and Asia, to Africa. Collocated just meters from the new Djibouti Telecom cable landing station, the DDC offers international. How many cable landing stations does Djibouti Telecom have?

Djibouti Telecom has built two cable landing stations, the YAK Cable Landing Station (YAK CLS) and the Haramous Cable Landing Station (Haramous CLS). Besides th.
