

What capacitor is 470nf for 12V inverter

Overview

The PC/HV/S/WF 470NF 1KV is an axial leaded low loss wound Film Capacitor with polypropylene dielectric. The PC/HV/S/WF series may be operated at high AC voltages and will withstand exceptionally high voltage rise time. The capacitor is particularly suitable for high frequency.

The PC/HV/S/WF 470NF 1KV is an axial leaded low loss wound Film Capacitor with polypropylene dielectric. The PC/HV/S/WF series may be operated at high AC voltages and will withstand exceptionally high voltage rise time. The capacitor is particularly suitable for high frequency.

To pick up a draggable item, press the space bar. While dragging, use the arrow keys to move the item. Press space again to drop the item in its new position, or press escape to cancel. Ceramic Capacitors are in stock at DigiKey. Order Now! Capacitors ship same day .

Please refer to product description. The PC/HV/S/WF 470NF 1KV is an axial leaded low loss wound Film Capacitor with polypropylene dielectric. The PC/HV/S/WF series may be operated at high AC voltages and will withstand exceptionally high voltage rise time. The capacitor is particularly suitable for.

Smart Filtering As you select one or more parametric filters below, Smart Filtering will instantly disable any unselected values that would cause no results to be found. Please modify your search so that it will return results. To use the less than or greater than function, please select a value.

Product not available outside the United States. This item is on backorder. Contact us for more information .

The pictures of products are only demonstrative and may be different than the real look of products. It does not change their basic features. The documentation is not updated automatically, but we make every effort to provide the latest versions of the documents. See other products in this.

Typically, aluminum electrolytic capacitors are the best option for power electronics applications requiring high capacitance (100's of μF to Farads), up to 600 Vdc. Standard DC Link film caps meet bus voltage applications between 450 -

1300 Vdc. Custom DC Link designs available up to 100 kVdc The.

What capacitor is 470nf for 12V inverter

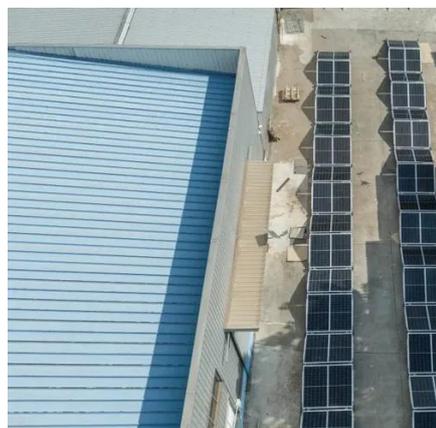

Capacitor

470nF (474) Ceramic Capacitor A capacitor (originally known as a condenser) is a passive two-terminal electrical component used to store ...

940C12P47K-F CORNELL DUBILIER

CORNELL DUBILIER 940C12P47K-F , Capacitor: polypropylene; 470nF; Leads: axial; THT; ESR: 7m Ω ; \pm 10% - This product is available in Transfer Multisort Elektronik.

470 nF Ceramic Capacitors , Electronic Components Distributor ...

Ceramic capacitors consist of two or more alternating layers of ceramic material as the dielectric and metal layers acting as the non-polarized electrodes. Applications include automotive, ...

[KEMET Capacitor, 470nF, 160VAC, 400VDC, 10% : Datasheet](#)

Surface Mount Polyethylene Naphthalate (PEN) Film Capacitor LDE, Unencapsulated Stacked Chip, Size 1206 - 6054, 50 - 1,000 VDC (Automotive Grade) Overview Applications ...

Capacitor

470nF (474) Ceramic Capacitor A capacitor (originally known as a condenser) is a passive two-terminal electrical component used to store energy electrostatically in an electric field.

What capacitor is 470nf for 12V inverter

The BC 470n K 400 definitely looks like a capacitor, most probably it is a 470nF 400V PPC capacitor. $470\text{nF} = 0.47\mu\text{F}$. Yes a capacitor across the switch will pass some current to the ...
